

# ECOSEAL+™

## Draw the line on performance.

Set your homes apart with Knauf Insulation EcoSeal+, an innovative, water-based elastomeric spray that seals air passages and helps you achieve energy-saving performance in your building envelope.

**EcoSeal+ provides exceptional performance<sup>1</sup>**

- Meets building code requirements for top plate gasket
- Air leakage resistance exceeds EPA Energy Star requirements<sup>2</sup>
- Superior thermal performance — assured R-values
- Sound Transmission Class (STC) values beat foam<sup>3</sup>

**EcoSeal+ is cost effective**

- Allows you to offer homebuyers high performance at a lower cost
- Contributes to higher market value for home

**EcoSeal+ is simple to install**

- All crews can be trained to install
- No risk or impact on other trades, so no schedule delays
- Easy to see once it's applied, which makes inspection easy
- Comes in one bucket — no mixing required

**EcoSeal+ makes homes more efficient**

- Maintains the credibility you've built your reputation on
- Saves your homeowners money every month they own the home with lower energy bills

Request EcoSeal+ as part of the EcoSeal+ System for your homes. Call 1-800-825-4434 ext. 8512 or visit us online at [ecoseal+.knaufinsulation.us](http://ecoseal+.knaufinsulation.us)
